DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Canada on 15 February 2001. It is noted, however, that applicant has not filed a certified copy of the 2,337,465 application as required by 35 U.S.C. 119(b).

Information Disclosure Statement

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Drawings

The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81. No new matter may be introduced in the required drawing.

Specification

The use of the trademark FRISBEE has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Art Unit: 3712

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Claim Objections

Claims 1, 3, 5 and 6 are objected to because of the following informalities:

Claims 1 and 5, lines 6 and 2 & 4, respectively, delete "side wall" and insert – sidewall--.

Claims 1 and 8, lines 8 and 1, respectively, delete "the".

Claims 1 and 2 fines 7 and 2, respectively, after "...said annular flange..." insert —portion--./

Claim 1, line, delete "portions" and insert -portion--.

Claim 3, line 2, delete "depresses" and insert -depressed--.

Claim 3, line 3, after "...annular sidewall..." insert -portion--.

Appropriate correction is required.

delete portions" and

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3712

Claim 8 recites the limitation "said waterproof, durable, and flexible material" in lines 1 and 2. There is insufficient antecedent basis for this limitation in the claim.

Claims 9 and 10 recite the limitation "said pie-shaped member" in lines 3 and 2, respectively. There is insufficient antecedent basis for this limitation in the claims.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. 4,212,131 to Ross, Jr.

Ross, Jr. discloses all of the claimed structural limitations recited in claims 1-4 (see figs.1-5, and respective portions of the specification).

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. Des. 414,823 to Gardner.

Gardner discloses all of the claimed structural limitations recited in claims 1-4 (see figs.1-4, and respective portions of the specification).

Art Unit: 3712

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. 4,919,083 to Axelrod.

Axelrod discloses all of the claimed structural limitations recited in claims 1-4 (see figs.1-11, and respective portions of the specification).

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. 3,359,678 to Headrick.

Headrick discloses all of the claimed structural limitations recited in claims 1-4 (see figs.1-4, and respective portions of the specification).

Claims 9, and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. 4,253,672 to Milzoff et al.

Milzoff et al. discloses all of the claimed structural limitations recited in claims 9 and 10 (see figs.1-7, and respective portions of the specification).

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 9, and 10 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by U.S. Patent No. 6,174,214 B1 to Cooper.

Cooper discloses all of the claimed structural limitations recited in claims 9 and 10 (see figs.1-4, and respective portions of the specification).

Art Unit: 3712

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 5-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Headrick in view of Cooper.

Headrick in view of Cooper discloses the claimed invention except for the reenforcing member being composed of a flexible woven fabric. It would have been
obvious to one having ordinary skill in the art at the time the invention was made to
modify the disc of Headrick in view of Cooper to include the aforementioned limitation
for the purpose of added flexibility and durability, since it has been held to be within the
general skill of a worker in the art to select a known material on the basis of its suitability
for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

Claims 5-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ross, Jr. in view of Milzoff et al.

Ross, Jr. in view of Milzoff et al. discloses the claimed invention except for the reenforcing member being composed of a flexible woven fabric. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the disc of Ross, Jr. in view of Milzoff et al. to include the aforementioned limitation for the purpose of added flexibility and durability, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.
